& COMPLIANCE ASSURANCE  
WASTE ENGINEERING AND ENFORCEMENT DIVISION  
(860) 424-3248**

**BENEFICIAL USE OF SOLID WASTE**

**PRELIMINARY QUESTIONNAIRE**

Applicants interested in obtaining either a Beneficial Use Determination (BUD) or proposing a new general permit for the beneficial use of a solid waste/material should complete & submit the following information prior to meeting with DEP. The Department will subsequently review this information and schedule a meeting to discuss their proposal. Any questions should be directed to: Carey Hurlburt at (860) 424-3248.

- 1) Identify the type of solid waste/material that you are proposing to beneficially use and how it is generated.
- 2) List the way(s) this solid waste/material will either be incorporated into a manufacturing process to make a product or used as an effective substitute for an analogous raw material.
- 3) Describe how this proposed beneficial use constitutes a "reuse" rather than a "disposal" and how it is consistent with the current Solid Waste Management Plan.
- 4) Submit any solid waste characterization studies that have been conducted and/or identify any chemical constituents that are present in the solid waste you are proposing to beneficially use, including life cycles and potential environmental or health impacts.
- 5) Describe any type of additional processing the solid waste/material will undergo prior to being beneficially used.
- 6) Identify and submit copies of any other BUDs and/or general permits that you have applied for or received from CT DEP or from any other State. Include any contracts and/or letters of agreement/interest from others willing to use these proposed application(s).
- 7) Any other pertinent data the applicant would like to submit or requested to submit.
